Evaluation:

Compliance with the requirements of Regulation (EU) 2023/915 regarding the parameters analyzed.

According to Regulation (EC) Nr. 2023/915 the MRL of inorganic arsenic for rice for the production of baby foods, for infants and young children is 0,1 mg/kg. This limit is kept.

Compliance with the requirements of Regulation (EC) No. 396/2005 regarding the parameters analyzed.

According to Regulation (EC) no. 1169/2011 in combination with the implementing Regulation (EC) no. 828/2014 foodstuff as sold to the final consumer with a maximal content of 20 mg/kg gluten may be labelled as gluten-free.
Therefore this sample may be labeled with the term "gluten-free".

The legal assessment is based on European regulations, the LFBG and the legal and implementing provisions issued pursuant to this law. Furthermore, the evaluation is based on the guidelines outlined in document 'SANTE/11312/2021'.

The results refer exclusively to the examined sample (as received)

If the sampling and transport were not carried out by GALAB, it is possible that the sample may have been influenced prior by incorrect selection or insufficient cleaning of the sample containers or lack of preservation/cooling. We recommend to check any findings in this respect critically.
